BULLETIN
OF THE
INTERNATIONAL RAILWAY CONGRESS
ASSOCIATION
(ENGLISH EDITION)

[385. (05)]

THE LIBRARY OF
NOV 20 1929
UNIVERSITY OF ILLINOIS

EDITORIAL OFFICES : Permanent Commission of the Association,
74, rue du Progrès, Brussels.

PUBLISHER : M. WEISSENBRUCH Co., Ltd., Printer to the King,
48, rue du Poinçon, Brussels.

SUBSCRIPTIONS MAY BE SENT ALSO TO P. S. KING AND SON, Ltd.
PARLIAMENTARY AND GENERAL BOOKSELLERS
14, Great Smith Street, Westminster, S. W., London.

All original articles and papers published in the BULLETIN are copyright,
except with the consent of the authors and the Committee.

Agents for advertisements : The International Publishing Corporation,
97, rue Royale, Brussels.

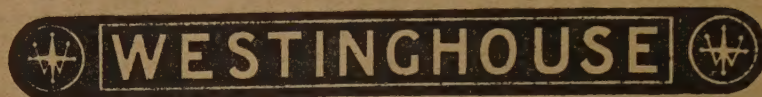

An edition in French is also published.

Price of this single copy : 19 sh. 6 = \$ 4.85 (not including postage).

EFFICIENT FREIGHT SERVICE

IS HAD WITH

THE

BRAKE

In the United States of America, Canada, Mexico,
New Zealand, New South Wales, etc.

and the Westinghouse Automatic Brake has been
adopted by all the Allied Governments as standard
for goods trains in Europe.

The Westinghouse Improved Triple Valve

is specially designed for European freight service,
and enables long loosely-coupled trains to be quickly
pulled up, and as quickly restarted, without undue
shocks and surges

"Westinghouse,, mileage exceeds "Vacuum,, mileage
by Four to One.

The Westinghouse Brake & Saxby Signal C^o L^d
82, York Road, King's Cross, LONDON, N. 1.

Associated Companies in
America, Australia, Belgium, Canada, France, Germany, Italy, Russia and Spain.

CONTENTS

OF THE

11th YEAR OF THE ENGLISH EDITION.

No. 1. — January 1929.

	PAGES.	NUMBERS of plates and figures.	NUMBERS of the decimal classification.
I. The calculation of ferro-concrete bridges consisting of three spans supported on fixed piers, by Fernand BERGER and Paul VAN WEYENBERGHE	5	Figs. 1 to 25, pp. 5 to 43.	624 .7 (01)
II. The co-ordination of the duties of the Operating and Locomotive Running Departments and their organic reunion. — 1. — Study of the co-ordination of the duties of the Operating and Locomotive Running Departments on the Paris, Lyons and Mediterranean Railway, by Georges HARGAVI	44	Figs. 1 to 3, pp. 46 to 49.	385 .4
III. The chevron fish plate, by Georges COULLIÉ and Louis CADIS.	59	Figs. 1 to 9, pp. 59 to 63.	625 .143.4
IV. String lining of curves made easy, by Charles H. BARTLETT.	65	Fig. 1, p. 70.	625 .113. (.73)
V. " Winterthur " type of high pressure locomotive with a boiler having a working pressure of 850 lb. per square inch, by J. BUEHLI.	75	Figs. 1 to 24, pp. 77 to 92.	621 .132.3 (.494) & 621 .134.3 (.494)
VI. Road and rail transport	94	...	656 .1 (.42) & 656 .2 (.42)
VII. MISCELLANEOUS INFORMATION :			
1. The steel rail. Reliability versus wearing capacity.	100	...	625 .143.2 & 625 .143.3
2. Operating results of the Japanese State Railways for the financial year 1926-1927	102	...	385 .113 (.52)
III. NEW BOOKS AND PUBLICATIONS :			
Dynamic stresses and vibrations of the main girders of railway bridges	109	Fig. 1, p. 114.	624 .2 (01)
X. MONTHLY BIBLIOGRAPHY OF RAILWAYS :			
I. Books	4	...	016 .385. (02)
II. Periodicals	5	...	016 .385. (05)
No. 2. — February 1929.			
I. Concrete sleepers, by Dino LEVI DE VEALI	115	Figs. 1 to 44, pp. 121 to 166.	625 .142.4
II. The relative values of the tests employed during the inspection of steel for manufacturing purposes, by Ch. FRÉMONT	168	Figs. 1 to 10, pp. 170 to 173.	62. (01 & 669 .1

No. 2 — February 1929 (CONTINUED).

	PAGES.	NUMBERS of plates and figures.	NUMBERS of the decimal classification.
III. Strain effects in mild steel, by H. S. RAWDON	175	Figs. 1 to 15, pp. 177 to 187.	62. (01 & 669 .1
IV. Flanges of locomotive tyres	189	Figs. 1 to 7, pp. 190 to 193.	621 .135. (01 (.42) & 621 .135.2 (.42)
V. The heating of locomotive axle bearings, by H. B. BUCKLE.	195	Figs. 1 to 7, pp. 198 and 199.	621 .135.2
VI. CURRENT PRACTICE :			
1. New motive power and rolling stock on the Reading Company.	205	Figs. 1 to 4, pp. 206 and 207.	621 .132.5 (.73) & 625 .245 (.73)
2. Bogie saloon coaches, belonging to the Paris, Lyons and Mediterranean Railway, specially fitted out for the conveyance of invalids	209	Fig. 1, p. 210.	625 .232 (.44)
VII. MISCELLANEOUS INFORMATION :			
Carriage washing plant at York, London and North Eastern Railway	212	Figs. 1 and 2, p. 213.	625 .236 (.42)
VIII. MONTHLY BIBLIOGRAPHY OF RAILWAYS :			
I. Books	21	...	016 .385. (02
II. Periodicals.	23	...	016 .385. (05

No. 3. — March 1929.

I. British locomotives in 1928. Designs and work, by J. F. GAIRNS	215	Figs. 1 to 8, pp. 216 to 221.	621 .132.1 (.42)
II. Special hard wearing steels for use in points and crossings, by Paul MARTHOUREY	232	Figs. 1 to 35, pp. 233 to 249.	625 .143.2 & 669 .1
III. Transverse fissures can now be located	253	Figs. 1 to 7, pp. 255 to 261.	625 .143.3 (.73) & 625 .245 (.73)
IV. The diagramming of locomotive workings, by J. G. SAMS.	265	Fig. 1, p. 267.	621 .137.3
V. Welded construction for large shop building	273	Figs. 1 to 8, pp. 274 to 281.	621 .392 (.73)
VI. Projected extensions of the main line stations in Paris, by Mr. DUCHESNOY.	283	...	656 .211 (.44)
VII. Automatic train control systems on the Railways of the United States, by A. KAMMERER.	291	Figs. 1 to 9, pp. 293 to 301.	656 .253 (.73)
VIII. CURRENT PRACTICE :			
1. The new Piccadilly Circus Station.	303	Figs. 1 to 5, pp. 305 to 310.	625 .4 (.42) & 656 .211 (.42)
2. Proposed London and Paris Railway	313	Fig. 1, p. 314.	625 .4 (.42 + .44)
IX. MISCELLANEOUS INFORMATION :			
1. New Clayton steam rail cars for Ireland.	316	Figs. 1 and 2, p. 317.	621 .132.8 (.42)
2. Modern counterbalance conditions, by H. A. F. CAMPBELL	318	...	621 .135. (01
3. The Vickers "V. 1" single battery train lighting system	320	Figs. 1 and 2, pp. 321 and 322.	625 .233 (.42)

No. 3. — March 1929 (CONTINUED).

X. NEW BOOKS AND PUBLICATIONS :

The **economics of rail transport** in Great Britain, by
C. E. R. SHERRINGTON

List of the subjects given in Appendix I of the **International Convention dealing with the transport of goods by railway**, dated the 23 October 1924 (C. I. M.) in the form of tables with alphabetical contents list. In force as from the 1 October 1928. By the CENTRAL OFFICE FOR INTERNATIONAL RAILWAY TRAFFIC, at Berne

XI. MONTHLY BIBLIOGRAPHY OF RAILWAYS :

I. Books

II. Periodicals

No. 4. — April 1929.

I. The first ten year's existence of the **Czechoslovakian Railways**, by Paul KOLLER

II. The **transpyrenean railways**, by Marcel GARAU

III. **Reinforced concrete sleepers**, Vagneux system.

IV. The **manufacture of sound rails**.

V. **Water softening** for locomotive boilers. London and North Eastern Railway installs new plant at Annesley

VI. CURRENT PRACTICE :

1. Changes in the general **organisation of the South African Railways**

2. The **electrification** of the Bombay suburban section, Bombay, Baroda and Central India Railway, by Sir Leslie Orme WILSON

3. Great Western Railway makes **agreement with road undertaking**

4. An **agreement** between the London Midland and Scottish, London and North Eastern Railways and the Sheffield Corporation

VII. MISCELLANEOUS INFORMATION :

Strengthening of bridges by electric welding.

VIII. OBITUARY :

William John **Thorowgood**

No. 5. — May 1929.

	PAGES.	NUMBERS of plates and figures	NUMBERS of the decimal classification.
I. Report No. 2 (America, British Empire, China and Japan) on the question of the use of concrete and reinforced concrete on railways (subject I for discussion at the eleventh session of the International Railway Congress Association), by F. B. FREEMAN	433	Figs. 1 to 19, pp. 434 to 474.	624 .63, 625 .142.4 & 721 .9
II. Report No. 1 (America) on the question of resistance of rails against breakage and to wear (subject II for discussion at the eleventh session of the International Railway Congress Association), by R. B. ABBOTT	483	Figs. 1 to 3, pp. 485 and 487.	625 .143
III. Report No. 1 (America) on the question of stresses in railway bridges (subject III for discussion at the eleventh session of the International Railway Congress Association), by P. G. LANG, Jr.	502	...	624 .2 (01)
IV. Report No. 1 (America, British Empire, China and Japan) on the question of the use in railway work of machines for simplifying statistical and accountancy work (subject XIV for discussion at the eleventh session of the International Railway Congress Association), by W. E. EPPLER	507	Figs. 1 to 14, pp. 510 to 536.	651 & 652
V. The heat treatment of rails in service . The war against corrugated wear, by E. MARCOTTE	540	Figs. 1 and 2, pp. 541 and 542.	625 .143.2 & 625 .143.3
VI. The relative values of the tests employed during the inspection of steel for manufacturing purposes, by R. GRANJON	548	Figs. 1 and 2, pp. 549 and 550.	62. (01 & 669 .1
VII. Highway crossing protection	551	Figs. 1 to 16, pp. 552 to 563.	656 .254 (.73)
VIII. CURRENT PRACTICE : New pattern of permanent way on the Great Indian Peninsula Railway	566	...	625 .14 (.54)
IX. MONTHLY BIBLIOGRAPHY OF RAILWAYS : I. Books II. Periodicals	65 67	016. 385. (02 016. 385. (05

No. 6. — June 1929.

I. Transition curves in both elevation and plan at the same time, by Felice CORINI	567	Figs. 1 and 2, pp. 570 to 573.	625 .113
II. Notes on the calculation of rails for high speeds, by Victor V. STOJKA	574	Figs. 1 and 2, pp. 574 and 576.	625 .143. (01)
III. The projected Kill van Kull steel arch bridge between New-Jersey and Staten Island, New-York City	578	Figs. 1 and 2, p. 579.	624 .62 (.73)
IV. The axle-boxes in use on railway rolling stock considered from a technical point of view, by L. FARON	581	Fig. 1, p. 585.	625 .214

No. 6. — June 1929 (CONTINUED).

	PAGES.	NUMBERS of plates and figures.	NUMBERS of the decimal classification.
V. Report No. 3 (America, British Empire, China and Japan) on the question of all-steel coaches . — Comparison with vehicles built of wood (subject VIII for discussion at the eleventh session of the International Railway Congress Association), by E. J. H. LEMON.	589	Figs. 1 to 39, pp. 593 to 662.	625 .23
VI. Report No. 2 (America, British Empire, China and Japan) on the question of methods to be used in marshalling yards to control the speed of vehicles being shunted , and to ensure they travel on to the lines in the various groups of sidings (subject X for discussion at the eleventh session of the International Railway Congress Association), by C. R. BYROM	715	Figs. 1 to 21, pp. 718 to 750.	625 .258 & 656 .212.5
VII. Report No. 1 (America, China and Japan) on the question of competition of road transport (subject XIII for discussion at the eleventh session of the International Railway Congress Association), by C. B. SUDBOROUGH	767	...	656 .1 & 656 .2
VIII. The Franco-Italian Railway from Nice to Coni, via Sospel, by G. BLOT	779	Figs. 1 to 36, pp. 780 to 806.	625 .1 (.44 + .45)
IX. Organisation of the stores department of the technical services of the French Eastern Railway	808	Figs. 1 to 6, pp. 811 to 819.	621 .139 (.44), 625 .18 (.44) & 625 .27 (.44)
X. Note on the organisation of duties in the Central Train Control Offices on the French Eastern Railway	821	Figs. 1 to 5, pp. 823 to 826.	656 .254 (.44)
XI. Results of trials and some notes on welded joints of profiled sections, by H. DUSTIN	829	Figs. 1 to 7, pp. 831 to 834.	62. (01 & 621 .392
XII. CURRENT PRACTICE.			
1. Periscopes on electric trains , Southern Railway, Great Britain	841	Fig. 1, p. 841.	656 .259 (.42)
XIII. NEW BOOKS AND PUBLICATIONS :			
1. Cours d'exploitation de chemins de fer. Tome I. Ex loitation commerciale 2 ^e édition. (Railway Operating Course, Vol. 1, Commercial operating, 2nd edition), by U. LAMALLE	843	...	385. (02 & 656. (02
2. Der Eisenbahnoberbau im Deutschen Reich . Ein handbuch für Lernende und Lehrer Eisenbahnwesens. (The permanent way on the German Railways. Handbook for railway students and teachers), by H. SALLER.	845	...	625 .14 (.43)
3. Handling London's Underground traffic , by J. B. THOMAS	846	...	625 .4 (.42) & 656 .2 (.42).
IV. MONTHLY BIBLIOGRAPHY OF RAILWAYS :			
I. Books.	79	...	016 .385. (02
II. Periodicals	81	...	016 .385. (05

No. 7. — July 1929.

	PAGES.	NUMBERS of plates and figures.	NUMBERS of the decimal classification.
I. The organisation of a suburban service of the French Eastern Railway (Vincennes line)	849	Figs. 1 to 7, pp. 851 to 856.	656 .222.5 (.44)
II. Report No. 2 (British Empire, China and Japan) on the question of the investigation into the static and dynamic stresses in railway bridges (subject III for discussion at the eleventh session of the International Railway Congress Association), by Sir Henry FOWLER and G. ELLSON	859	Figs. 1 to 4, pp. 864 to 884.	624 .2
III. Report No. 2 (America) on the question of electric locomotives for main line traction (subject VII for discussion at the eleventh session of the International Railway Congress Association), by J. V. B. DUER	887	Figs. 1 to 59, pp. 889 to 953.	621 .335
IV. Report No. 1 (Belgium, France and their colonies) on the question of all-steel coaches. Comparison with vehicles built of wood (subject VIII for discussion at the eleventh session of the International Railway Congress Association), by Messrs. LANCRENON and VALLANCIEN	1023	Figs. 1 to 21, pp. 1024 to 1049.	625 .23
V. Report No. 1 (all countries, except America, the British Empire, China, Japan, Belgium, France and their colonies) on the question of relations between railways and sea ports (subject IX for discussion at the eleventh session of the International Railway Congress Association), by E. EHRENFREUND and L. BELMONTE	1093	Figs. 1 to 13, pp. 1098 to 1117.	656 .213
VI. Report No. 1 (America, the British Empire, China and Japan) on the question of the co-operation of the staff towards increased efficiency and its participating in the profits (subject XV for discussion at the eleventh session of the International Railway Congress Association), by C. C. COOK.	1125	...	385 .524
VII. CURRENT PRACTICE : The use of containers on British Railways	1146	Figs. 1 to 6, pp. 1147 to 1151.	656 .225(.42)& 656 .261 (.42)
VIII. OBITUARY : R. W. Reid.. . . .	1153	...	385. (09.2
IX. NEW BOOKS AND PUBLICATIONS : Aperçu de l'évolution des chemins de fer français de 1878 à 1928. (The evolution of railways in France between 1878 and 1928) , by R. GODFERNAUX	1154	...	385. (09.3 (.44)
X. ERRATUM	1156
XI. MONTHLY BIBLIOGRAPHY OF RAILWAYS : I. Books	93	...	016 .385. (02
II. Periodicals	94	...	016 .385. (05

No. 8. — August 1929.

	PAGES.	NUMBERS of plates and figures.	NUMBERS of the decimal classification.
I. Report No. 3 (British Empire, China and Japan) on the question of the resistance of rails against breakage and to wear (subject II for discussion at the eleventh session of the International Railway Congress Association), by S. MATSUNAWA (with appendices by S. IKEDA)	1157	Figs. 1 to 41, pp. 1171 to 1229.	625 .143
I. Report No. 1 (all countries, except America, the British Empire, China, Japan, France, Italy, Portugal, Spain and their colonies) on the question of the methods to be used in marshalling yards to control the speed of vehicles being shunted , and to ensure they travel on to the lines in the various groups of sidings (subject X for discussion at the eleventh session of the International Railway Congress Association), by Ctibor FIALA	1277	...	625 .258 & 656 .212.5
I. Report No. 3 (British Empire) on the question of competition of road transport (subject XIII for discussion at the eleventh session of the International Railway Congress Association), by H. L. WILKINSON	1287	656 .1 & 656 .2
V. Report No. 3 (America, the British Empire, China and Japan) on the question of the methods followed in training of staff , professional, technical and ordinary working grades (subject XVI for discussion at the eleventh session of the International Railway Congress Association), by L. C. FRITCH	1315	...	385. (07 & 385 .586
V. Report No. 1 (all countries except America, the British Empire, China, Japan, Belgium, France, Holland, Italy, Portugal, Spain and their colonies) on the question of the methods followed in training of staff , professional, technical and ordinary working grades (subject XVI for discussion at the eleventh session of the International Railway Congress Association), by Mr. MEREUTZA	1453	...	385. (07 & 385 .586
I. Report No. 2 (America, British Empire, China and Japan) on the question of penetration railways (subject XVII for discussion at the eleventh session of the International Railway Congress Association), by Sir Ashley Biggs and C. W. LLOYD JONES	1487	...	385. (01
I. The use of steel sleepers by British Railways	1512	Figs. 1 to 10, pp. 1514 to 1518.	625 .142.3 (.42)
I. Non-automatic devices for load and no-load braking , by L. CHAMON	1521	Figs. 1 to 5, pp. 1522 to 1526.	625 .251
X. Automatic train control in Germany	1529	Figs. 1 to 10, pp. 1532 to 1538.	656 .253 (.43)
K. CURRENT PRACTICE : Passenger communication on the new stock of the Italian State Railways	1541	Figs. 1 to 3, pp. 1542 to 1544.	656 .259 (.45)
I. MISCELLANEOUS INFORMATION : The Chamon system of automatic power brake rigging	1545	...	625 .251
I. MONTHLY BIBLIOGRAPHY OF RAILWAYS : I. Books	103	...	016 .385. (02
II. Periodicals	104	...	016 .385. (05

No. 9. — September 1929.

	PAGES.	NUMBERS of plates and figures.	NUMBERS of the decimal classification
I. The calculation of the stresses set up in a bogie frame running through a curve, by F. LEGER	1547	Figs. 1 to 4, pp. 1548 to 1552	625 .215. (01
II. Note on the calculation of rails for high speeds, by F. CORINI	1560	...	625 .143. (01
III. Report No. 2 (British Empire, China and Japan) on the question of locomotives of new types; in particular turbine locomotives and internal combustion motor locomotives (subject V for discussion at the eleventh session of the International Railway Congress Association), by R. E. L. MAUNSELL	1563	Figs. 1 to 3, pp. 1564 to 1568.	621 .132.8
IV. Report No. 1 (France, Italy, Portugal, Spain and their Colonies) on the question of improvements in the steam locomotive (subject VI for discussion at the eleventh session of the International Railway Congress Association) by A. PARMANTIER	1573	Figs. 1 to 37, pp. 1581 to 1634.	621 .134
V. Report No. 3 (British Empire, China and Japan) on the question of electric locomotives for main line traction (subject VII for discussion at the eleventh session of the International Railway Congress Association), by Kiichi ASAKURA and Hisashi IMAIZUMI	1681	Figs. 1 to 21, pp. 1696 to 1726.	621 .335
VI. Report No. 1 (France and Colonies) on the question of electric locomotives for main line traction (subject VII for discussion at the eleventh session of the International Railway Congress Association), by Messrs. de BOYSSON and LEROUCHER	1733	Figs. 1 to 24, pp. 1735 to 1756.	621 .335
VII. Report No. 2 (all countries except America, the British Empire, China, Japan, Belgium, France and their Colonies) on the question of all steel coaches. Comparison with vehicles built of wood (subject VIII for discussion at the eleventh session of the International Railway Congress Association), by Martin GARCIA-VARO and Pablo FRAILE	1771	Figs. 1 to 12, pp. 1772 to 1793.	625 .23
VIII. Report No. 1 (America, British Empire, China and Japan) on the question of signalling of lines for fast traffic and in main stations. Daylight signals. Automatic block system (subject XI for discussion at the eleventh session of the International Railway Congress Association), by H. G. DRYDEN	1805	Figs. 1 to 53, pp. 1806 to 1863.	656 .25
IX. Report No. 1 (America, British Empire, China and Japan) on the question of economical traction methods for use in particular cases (subject XII for discussion at the eleventh session of the International Railway Congress Association), By R. H. NICHOLLS	1869	Figs. 1 to 17, pp. 1871 to 1902.	621 .132.8 & 656 .22
X. Report No. 2 (Belgium, France, Holland, Italy, Portugal, Spain and their Colonies) on the question of the methods followed in training of staff, professional, technical and ordinary working grades (subject XVI for discussion at the eleventh session of the International Railway Congress Association), by Mr. BARTH	1905	...	385. (07 & 385 .586

No. 9. — September 1929 (CONTINUED).

XI. Report No. 2 (all countries, except Europe) on the question of the **improvements in the permanent way equipment of light railways** (subject XVIII for discussion at the eleventh session of the International Railway Congress Association), by Mostafa Bey Hamdi EL KATTAN

II. MISCELLANEOUS INFORMATION :

International Mining, Metallurgy and Applied Geology Congress

III. NEW BOOKS AND PUBLICATIONS :

Universal Directory of Railway Officials, 1929

Considerazioni militari sull' elettrificazione delle ferrovie (Military questions involved in the Electrification of Railways), par Alberto STABARIN

La Federazione internazionale della stampa tecnica e il suo IV^o Congresso. (The International Technical Press Federation and its IVth Congress), par Alberto STABARIN

L'informazione statistica nei trasporti. Necessita e metodo dei relievi. (Statistical Information on Transportation questions. Need for and grouping of the various statistical elements), par Pietro BIRAGHI
